

# Engineering a new tomorrow

Adinah Capital Partners is proud to announce its investment in Andani Futuretech Manufacturing.

Andani Futuretech Manufacturing is a new South African industrial company, global in its approach and operating in Southern, Western and Eastern parts of Africa. Andani provides its customers with a comprehensive suite of advanced manufacturing capabilities, focusing on the manufacture and assembly of metallic components into both sub-assemblies and complete products.

Poised to provide world-class manufacturing capacity for global OEM's in the aerospace, rail and power generation sectors, Andani complies with industry specific requirements, standards and certifications.
