

Lift-off

Adinah Capital Partners is proud to announce its maiden investment in Daliff Precision Engineering. Established in 1972, Daliff is a leader in the field of machined components for the aerospace, avionics, electronics and defence industries within South Africa.

Adinah is an alternative asset management company providing solutions that create lasting value for its investors, the companies in which it invests and the communities with whom it interacts. Adinah has a specific focus in the aviation, rail, nuclear and energy sectors in South Africa and Africa and in particular, companies with precision engineering capabilities.
